nonprovisional	NO	\$1740	\$300	\$0	\$2040	09/07/2012

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

Allowance

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/7/2012 has been entered.

Allowable Subject Matter

Claims 9-11, 21-23, 33-35, and 37-43 are allowed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The Board of Appeals decided that the rejection of claims 9-11, 21-23, 33-35, and 37-43 is reversed. In addition, the Board applied a 101 rejection to claims 9-11 and 37-43. The newly amended claims filed 3/7/2012, overcome that 101 rejection. Furthermore, no prior art could be found to teach all of the claimed limitations. The following are some examples of the shortcomings of other prior arts.

While email systems that filter unwanted/junk/spam emails exist, none could be found to do so in the claimed manner. For instance, patent 6,023,723 teaches an email system that allows users to enter addresses into white (wanted) and black (unwanted) lists. The system also allows for waiting (undetermined) list. However, this email system does not allow for a number of votes/feedback to reach a threshold/score until it is deemed unwanted.

In another example, patent 6,052,709 also teaches an email system that detects unsolicited emails. However, this system detects and warns of unsolicited emails within the system itself and not based on user feedback/votes.

Patent 6,769,016 is another patent for detected unwanted electronic mail messages. It is also owned by McAfee/Network Associates, albeit under a different applicants. While this patent teaches using user indicators to analyze messages to classify unwanted emails, it does not explicitly teach the claimed plurality of users to provide votes/feedbacks to reach a threshold/score until an email is deemed unwanted. Message size is also not taken into account within patent 6,769,016.

Patent 6,167,434 is another example of an email system allowing for junk email detection. In particular, this email system enables a user to respond to the junk email so that they are removed from the junk email's mailing list. However this system fails to allow a plurality of users to vote until a threshold is reached so that the email is blocked.

Patent 6,321,267 is an email system that blocks junk email. This email system blocks emails based on various criteria within the system itself, such as IP address,

Art Unit: 2453

sender's address validity or header filtering. However the system too fails to allow a plurality of users to vote until a threshold is reached so that the email is blocked.

Patent 6,330,590 is another email block system wherein bulk mailings are detected when there are at least two e-mail messages identified containing the same non-address contents being sent to different e-mail addresses. A checksum using a 16-bit cyclic redundancy check is used to determine which emails to block. However blocking is not determined based on a threshold of user votes.

The email system of patent 6,453,327 blocks emails based on feedback from trusted users. That is if the trusted user classifies an email as being junk, the system classifies it as junk. While this email system does permit the counting of the number of users who classify an email as junk, it does not however cite a threshold/limit/score of votes/feedback being reached until the email is classified as junk/unwanted/spam. Nor does it cite the claimed scoring algorithm. In addition, it only takes junk classification from trusted users, not just any recipient of the potential junk email.

The email system of 6,687,740 determines what emails are unwanted. While an email is determined to be unwanted when a counter is incremented to a tolerance/predetermined level, the disclosure does not teach the claimed scoring algorithm responsive to identification of predetermined words within the email.

Hence while there are email system to block unwanted emails, no prior art could be found to teach the claimed unwanted email detection system using a scoring algorithm, user feedbacks/votes and an associated threshold. In particular, no prior art

Art Unit: 2453

could be found to teach the claimed email system wherein based on the message size and identification of predetermined words, a scoring algorithm is used to identify the received email message as a potentially unwanted email message. Email recipients then provide feedback as to whether the email is unwanted. And when the feedbacks/votes reach a threshold/score the email is identified as being positively unwanted.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to AZIZUL CHOUDHURY whose telephone number is (571)272-3909. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Krista Zele can be reached on (571) 272-7288. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
